EXPERIENCE

Golden Owl Consulting   *Mar 2018 - Present*
Vice leader of Ruby team from June 2020

— Responsible for code reviewing, managing, mentoring, and training inferior teammates

— Analyze client's requirements thoroughly to consult and apply appropriate solutions

— Commit readable, scalable code with proper design principles and design patterns

— Refine clients's application, tune app performance and reduce development process

PROJECTS

Event agency from Malaysia

a platform to help people to get into running with exciting challenges

Aug 2018 - Jan 2020

— Enhanced poor API's and dashboard's performance by inspecting code, log files, and performing stress testing

— Integrated payment gateway and 3rd-parties, attracted 10k+ new customers

Jan 2021 - Present

— Improved the bad development experience, code reload on development mode reduced from 30s to 4s

— Installed, set up new libraries and upgraded outdated libraries

Influencer marketing platform from Sweden   *Feb 2020 - Dec 2020*

a self-service global influencer marketing

— Stack includes RoR, React, PostgreSQL, Neo4j, MySQL

— Developed features against million-record tables such as global searching, data migration

— Reduced unit test elapsed time by half, reduced front-end re-rendering on saving code from 10s to 3s

— Studied new tech GraphQL, ReactJS to share workload with front-end developers
